

Technical Specifications for Electric vertical roll press machine

- Roller diameter : 96mm
- Ra : >0.8um
- Press gap: 0-2mm adjustable or better.
- Rolling width :150 mm
- Rolling speed: 0~40mm/s adjustable or better.
- Temperature up to 120⁰C or better.
- Temperature accuracy $\pm 1^{\circ}$
- Roller material: Hardness should be on par with HRC62.
- Size: L385mm*W245mm*H355mm or smaller.
- Heat, rolling temperature could be regulated and should be digitally displayed.
- Weight : below 65 kg
- Power and voltage: Watt :100W, Voltage : 220V
- Warranty- 1 Year with life time support.
- CE and ISO certification
- At least should have 5 installations in India.
